# NEWSLETTER

**March 1-15, 2006**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 1-15, 2006**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, March 01, 2006</u></b>			
2003062086	Palo Alto Medical Foundation - San Carlos Center San Carlos, City of San Carlos--San Mateo The proposed project is a 478,500 square foot medical building (including a detached 12,500 square foot central plant), two above-ground garages with approximately 1,245 parking spaces (in addition to 132 surface parking spaces on site), and a clock tower. The medical building would house a hospital, medical offices, and ancillary/supporting uses.	<b>EIR</b>	04/28/2006
2003091012	Village 2, 3 and 4 (portion) Sectional Planning Area Plan and Tentative Map Draft EIR Chula Vista, City of Chula Vista--San Diego Development of a 1,187-acre site in Village 2, 3 and 4 (portion) of the Otay Ranch General Development Plan, located in the Eastern Territories area of the City , with 986 single-family residential lots, 1,800 multi-family dwelling units, neighborhood and community parks, community purpose facilities, elementary school site, open space, and circulation, trail and infrastructure network to serve these uses.	<b>EIR</b>	04/14/2006
2005032134	Kaiser Permanente Oakland Medical Center Master Plan Oakland, City of Oakland--Alameda Kaiser Foundation Health Plan, proposes the Kaiser Permanente Oakland Medical Center (OMC) Master Plan Project, which would entail the phased replacement of the existing medical center with a new, comprehensively planned state-of-the-art medical center. The proposed project would result in a new medical center of approximately 1.78 million square feet of building area on approximately 21 acres.	<b>EIR</b>	04/14/2006
2004112093	Congregation Kol Shofar Expansion Tiburon, City of Tiburon--Marin The proposed project is a Conditional Use Permit Application to expand an existing religious facility and day school. The project would involve: construction of a new multi-purpose room with a maximum capacity in the main room and lobby of 898 people, construction of four new classrooms, renovation of interior spaces of existing buildings, reconfiguration of on-site vehicular circulation and addition of 40 new parking spaces, improvement of pedestrian access around the site, and provision of improved on-site landscaping.	<b>FIN</b>	
2006031001	Tentative Tract TT-06-012 Victorville, City of Victorville--San Bernardino To allow for a 7-lot single-family residential subdivision on 2.54 gross acres of vacant land.	<b>MND</b>	03/30/2006
2006031003	Conditional Use Permit # 06-0001 (Alfred Olivas Propane Tank Project) Imperial County Planning Department --Imperial The Permittee, Alfred Olivas, has submitted Conditional Use Permit #06-0001 for the installation and operation of a 18,000 gallon propane storage tank, related equipment, storage of smaller domestic service tanks (5 gallons to 499 gallons in size), to include a trucking business to deliver propane to customers in the area.	<b>MND</b>	03/30/2006

## CEQA Daily Log

Documents Received during the Period: 03/01/2006 - 03/15/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, March 01, 2006</u></b>			
	According to the Permittee, this proposed site for the propane storage tank and related business would not be open to the public and is only to be open during normal business hours, i.e., 8:00 am to 5:00 pm, and all gates will be locked during non-working hours.		
2006032001	DiDuca Rezone and Tentative Subdivision Map (EZ-05-4) (SD-05-4) Paradise, City of Paradise--Butte Proposed rezone of a +/- 5.8-acre portion of a +/- 9.2-acre land area and proposed subdivision (Clear Creek Estates) of the land area into 11 resultant lots for future single-family residences.	<b>MND</b>	03/30/2006
2006012041	Eagle Lodge Base Area Development Project Mammoth Lakes, City of Mammoth Lakes--Mono Mammoth Mountain Ski Area proposes to construct a permanent base lodge facility that would include visitor lodging and a mix of ski-related uses, including food service, rental/demo/repair shop, retail, ski school and day care, ticketing/lobby, administrative space, and restrooms. In addition, the lodge would include a convenience market, restaurant, day spa and locker club.	<b>NOP</b>	03/30/2006
2006032003	Meadowlands Subdivision Project EIR/IS Lincoln, City of Lincoln--Placer The proposed project would develop a subdivision of approximately 359 single-family and multi-family units, parks, and roadways, and includes 58 acres of open space on a total of approximately 117 acres in the City of Lincoln.	<b>NOP</b>	03/30/2006
2006031002	Rees Grading Permit PMT2005-01449 San Luis Obispo County --San Luis Obispo Request by Shawn Rees to grade for a single-family residence and driveway, which will result in the disturbance of approximately 18,000 square feet of a 43,560 square-foot parcel and including approximately 200 cubic yards of cut and 200 cubic yards of fill. The proposed project is within the Agriculture land use category and is located at 5115 White Tail Place (north side), approximately 1,000 feet east of Maverick Road, approximately 1.85 miles south of the village of Whitley Gardens, in the El Pomar/Estrella planning area.	<b>Neg</b>	03/30/2006
2006031004	Shell Oil Products Wilmington Refinery Rule 1105.1 Compliance Project South Coast Air Quality Management District --Los Angeles Shell Oil Products US (Shell) is proposing modifications to its Wilmington Refinery solely to comply with SCAQMD Rule 1105.1 - Reduction of PM10 and Ammonia Emissions from Fluid Catalytic Cracking Units (FCCUs). Specifically, Shell operators are proposing to demolish their three existing electrostatic precipitators (ESPs) and replace them with three new ESPs to further control PM10 and ammonia emissions from their FCCU.	<b>Neg</b>	03/30/2006
2006032002	Shasta Cascade Broadcasting Inc Vesting Parcel Map Mount Shasta, City of --Siskiyou Four parcels plus remainder.	<b>Neg</b>	03/30/2006

## CEQA Daily Log

Documents Received during the Period: 03/01/2006 - 03/15/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, March 01, 2006</u></b>			
2006032017	2005-121 Tentative Parcel Map for Wilbert and Gloria Swihart Calaveras County Planning Department --Calaveras The applicants are requesting approval of a Tentative Parcel Map to divide 0.60 +/- of an acre parcel into two parcels, which will be 0.30 +/- of an acre each, respectively.	<b>Neg</b>	04/03/2006
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Vesting Tentative Parcel Map to divide one lot into three lots, property located at 1104 Diablo Avenue in the P-D(255) zone.	<b>NOD</b>	
2005062045	Blue Jay Lane Bridge Replacement at Anderson Creek Shasta County --Shasta Replace the existing two-span, 39-foot long by 17-foot wide Blue Jay Lane Bridge over Anderson Creek with a new four-span 154-foot long by 22-foot wide bridge. The specific alignment for the new bridge has not yet been determined. The new bridge will either be on approximately the same horizontal alignment or constructed immediately downstream and south of the existing bridge. The new bridge will be approximately two feet higher. The proposed project will require approximately one acre of new right-of-way and may involve the relocation of existing overhead power lines. Two detour options are being considered depending on final bridge design: either the existing bridge will remain open until the new bridge is complete at which time the old bridge, approaches and piers will be demolished and removed; or, a detour utilizing an existing farm road, running from Ash Creek Road north a point on Blue Jay Lane immediately east of bridge, will be graveled and maintained as a detour until the new bridge is open to traffic.	<b>NOD</b>	
2005062063	Gold Country Kubota Sales Yard and Storage (EIAQ-3682) Placer County Planning Department --Placer Proposed expansion of the sales yard and the addition of two storage buildings for tire and equipment storage.	<b>NOD</b>	
2005072156	Garcia Parcel Map (PMLD T20040339) Placer County Planning Department Colfax--Placer Minor Land Division of 5.5 acres divided into 4 parcels (1.1, 1.4, 1.7, and 1.3 acres in size).	<b>NOD</b>	
2005082052	Nicolaus Road Bridge Replacement (PEAQ 20050495) Placer County Planning Department Lincoln--Placer Proposal to replace existing narrow and structurally deficient bridge with a new, pre-cast concrete arch bridge that meets the design requirements for public safety.	<b>NOD</b>	
2005091088	La Serena Filter Plant Improvement Project Golden State Water Company --San Luis Obispo The Golden State Water Company proposes to upgrade the existing La Serena Plant.	<b>NOD</b>	

## CEQA Daily Log

Documents Received during the Period: 03/01/2006 - 03/15/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, March 01, 2006</u></b>			
2005102041	<p>Airport Road Widening and Bridge Replacement Project at Sacramento River Shasta County Anderson--Shasta</p> <p>Replace the existing 1,285 foot long by 28 foot wide two-lane bridge on Airport Road at the Sacramento River with a new four-lane 1,430' by 69' wide bridge with bike lanes and sidewalks. New alignment will be immediately upstream of existing bridge at approximately the same elevation over the river. The existing bridge will remain in use during construction of the new bridge and will be removed when the new bridge is complete. The project will require the acquisition of approximately seven acres of new, permanent right-of-way from seven parcels. The approach roadway work will consist of widening the existing two-lane road to four lanes from the intersection of Airport Road and Riverside Avenue in the City of Anderson to the south, northerly to the intersection of Airport Road and Dersch Road. The southern approach will be approximately 900 feet long while the northern roadway will be 2,000 feet from the bridge to the Dersch Road intersection. Fills on the south approach will be around 18 feet at the abutment, while the north abutment approach could be up to five feet in places to smooth out a substandard vertical curve, with further cuts on the existing cut bank of the roadway of up to 10 feet. The majority of the roadway cut will be around two feet for the structural section. Numerous utilities are located throughout the project. Utility lines attached to the existing bridge will need to be relocated to the new bridge, including a high-pressure gas main. Trenching along the roadway for utilities will be up to five feet. Overhead utility pole relocation may require excavations up to 15 feet.</p>	<b>NOD</b>	
2005102138	<p>Sierra Oaks Shopping Center Expansion, Granite Bay Branch (PCPA 2005-0290) Placer County Planning Department --Placer</p> <p>Proposed to modify the current use permit for the existing shopping center to allow additional square footage (12,575 sf).</p>	<b>NOD</b>	
2005122022	<p>Lone Tree Road Bridge Replacement at Anderson Creek Shasta County --Shasta</p> <p>Replace the existing one-span, 40-foot long by 14-foot wide Lone Tree Road Bridge over Anderson Creek with a new two span 88-foot long by 24-foot wide bridge on the same horizontal alignment and a raised vertical alignment. The project will also include 340' of new approach work to match the new, raised grade. A temporary on-site detour will be provided immediately upstream (north) of the existing bridge. The proposed detour will require approximately 0.08 acres of temporary right-of-way. Roadwork at the west end will consist of cutting enough of the original ground to get the structural section in place. This should not exceed more than one foot. Roadwork at the east end will consist of fill material. Sufficient cut material should be generated to complete the fill work for this project. The fills should not extend higher than four feet above original ground. The detour will be constructed on fill material, and then removed once the project is complete. Construction is tentatively schedule to begin in the spring of 2006.</p>	<b>NOD</b>	
2005122112	<p>Round Valley Woods Tentative Subdivision Map &amp; Planned Development Plumas County Planning Department --Plumas</p> <p>Tentative subdivision map and planned development for division of 16.81 acres into 33 residential lots with a modification of the minimum parcel size through a density transfer. The density transfer is being sought to avoid construction on steeper slopes.</p>	<b>NOD</b>

<b><u>Documents Received on Wednesday, March 01, 2006</u></b>			
2006011031	<p>Abatement and Removal Plan Fresno Irrigation District Fresno--Fresno</p> <p>The project consists of the pulverization and removal of approximately 65,000 to 75,000 cubic yards of asphalt and concrete rubble mixed with loose soil. New waste management practices adopted by the California Integrated Waste Management Board in 2003 set forth permitting requirements for facilities that handle inert debris and limit such storage to six months' time. As a result of passage of these regulations, FID is required to remove the debris from the subject site. An excavator will be used onsite for crushing of the material. Additional material will be hauled in as necessary and mixed with the onsite material in order to bring the finished product into standards with Class II road grade material. FID anticipates no more than 100 trucks to visit the site per day for material removal, and a maximum of 20 trucks per day bringing supplemental material. Primary access to the project site via Nielsen Avenue. FID expects the project to be completed in two years.</p>	<b>NOD</b>	
2006012042	<p>Brockway Pipeline Project Truckee Donner Public Utility District Truckee--Nevada</p> <p>To install approximately 10,000 feet of water pipeline to connect existing pipelines from Ranch Way to Indian Jack Road primarily along Brockway Road.</p>	<b>NOD</b>	
2006012050	<p>Mono Way Pedestrian / Bike Facility 10-TUO-108 (PM 3.5/4.2) Caltrans #6 Sonora--Tuolumne</p> <p>The proposed project includes construction of a bike lane along both sides of SR 108 (Mono Way) from PM 3.5 to 4.2. The project will close a gap in the existing bike lane. Construction will include shoulders and gutters, utility relocation, excavation, tree removal, borrow and fill, drainage/culvert work, and road cuts.</p>	<b>NOD</b>	
2006038001	<p>Ocotillo Wells (SVRA) Parks and Recreation, Department of --San Diego</p> <p>The project consists of the construction of a small youth motorcycle track in an existing use area. The oval track will be approximately 1/16 mile in length and involve minor grading. A fence will be installed around the track, as well as, 2 wooden shade ramadas and picnic tables.</p>	<b>NOE</b>	
2006038002	<p>PUD 05-18 - The Island @ Carlsbad Carlsbad, City of Carlsbad--San Diego</p> <p>Non-residential PUD of existing commercial site into 4 parcels.</p>	<b>NOE</b>	
2006038003	<p>House Pad Parks and Recreation, Department of --San Benito</p> <p>The purpose of this project is to install a new Mobile Home Pad and connect to existing utilities near the Lower Barn area. A single family unit already exists in this part of the West Ranch of Hollister Hills District. This Pad is needed to supply incentive for new employee hires. Housing cost in San Benito County is very high and state housing is needed to attract employees to this district. The proposed location of the new pad has been significantly disturbed by previous owners.</p>	<b>NOE</b>

<b><u>Documents Received on Wednesday, March 01, 2006</u></b>			
2006038004	Hydrogen Fueling Station University of California, Irvine Irvine--Orange Minor expansion to an existing hydrogen fueling station as part of a research project at the UCI North Campus. Project involves addition of a small structure to house new equipment (hydrogen storage tanks, compressors, and dispensers) to meet current standards.	<b>NOE</b>	
2006038005	Single Vaulted Restroom Parks and Recreation, Department of --San Luis Obispo The project will provide six additional single, vault style, restroom buildings in the camping areas of the Recreation Area. Each new restroom will be located next to the existing six restrooms and reduce the number of portable toilets required along the beach.	<b>NOE</b>	
2006038006	Vehicle Wash Rack Parks and Recreation, Department of --San Luis Obispo The project includes the installation of an oil/water separator apparatus, high-pressure clean water recovery system, an all concrete floor area and overhead roof structure to facilitate vehicle washing free of storm water impacts. The system will help prolong the life of the equipment in the harsh coastal environment by reducing the amount of salt-water intrusion on the complete District equipment fleet.	<b>NOE</b>	
2006038007	Entrance Gate Parks and Recreation, Department of --San Luis Obispo The project involves: 1) installation of a gate and a post barrier at the Park's Grand Avenue entrance to prevent vehicular access during the hours of day use closure, 11pm to 6 a.m., and 2) installation of a vehicle barrier in the sand along the north edge of the concrete sidewalk located on the north side of the entrance road. The project is intended to reduce staffing cost during holiday weekend periods when entrances are staffed 24 hours a day, reduce illegal vehicle use activity during closed hours and improve pedestrian safety during darkness.	<b>NOE</b>	
2006038009	California State Prison (CSP) Los Angeles County (LAC) Conversion of Level IV to Reception Center Facility Corrections, Department of Lancaster--Los Angeles Convert a second facility at CSP, LAC from a general population to Reception Center (RC) as a means to provide space to receive the increasing inmate population. CDCR proposes to move approximately 1,000 Level IV inmates from Facility C to other institutions within the state and back fill the facility with approximately 1,000 County jail inmates that have been sentenced to state prison. The CSP, LAC proposal is a bed for bed exchange between various prisons to better accommodate inmate needs based on classification requirements, educational, programming and medical and mental health care needs.	<b>NOE</b>

	Stanislaus. The proposed project site is located approximately 20 miles southwest of Modesto and 5.5 miles west of Crows Landing. The transfer of soil is proposed to occur as each new cell is constructed. The soil placement area would be the final resting place for the surplus soil.		
1999101010	Hampton Heights Planned Development San Bernardino County Land Use Services Department Redlands, Yucaipa--San Bernardino A General Plan Amendment, a Preliminary and Final Development Plan on 465 acres, a Master Tentative Map (#15918) on 465 acres, and an Implementing Tentative Tract Map (#15923) on 159 acres, north of Interstate 10 between the Cities of Redlands and Yucaipa.	<b>NOP</b>	04/03/2006
2005071108	Carrari Ranch Project Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino The proposed project site is located within an unincorporated area of San Bernardino County, within the City of Rancho Cucamonga Sphere of Influence. The entire project site is approximately 670 acres in size, although only approximately 74 acres would be developed as part of the project. No development proposals exist at this time for the remaining 596 acres. All 670 acres of the site are proposed to be annexed into the City of Rancho Cucamonga's jurisdiction. Development would consist of a total of 110 residential lots (ranging in size from approximately 10,000 square feet to 47,500 square feet), result in a net density of approximately 1.5 dwelling units per acre for the developable portion of the site.	<b>NOP</b>	04/03/2006
1999101037	Rosamond Community Services District, Wastewater Treatment Plant Expansion Rosamond Community Services District Rosamond--Kern The proposed project would entail the expansion of the Rosamond Community Services District Wastewater Treatment Plant. Improvements would include adding treatment capacity and effluent disposal facilities. The initial expansion will provide an additional 0.5 million gallons per day (MGD) of capacity; however, the facilities will be expandable to an ultimate capacity of 1.0 MGD.	<b>Neg</b>	04/03/2006
2006031013	Norris School District, Veterans Elementary School Norris School District Bakersfield--Kern Of the 24 acres owned by the District, 15-acres will be used for the elementary school and the remaining 9 acres will be used for related facilities. The school buildings will total approximately 70,000 square feet and will include approximately 30 to 36 classrooms; also included will be a cafeteria and multipurpose building, offices, a library, custodial and maintenance rooms, a staff lounge, restrooms and workrooms. The proposed campus will house approximately 800 to 900 students and between 55 to 60 employees. The school was a single story facility with suitable parking for staff, parents, and a bus loading area away from the parents and visitor parking areas. Related facilities include the remaining acres for a bus barn, bus washing facility, various offices, the District's technology hub, central receiving, and related parking.	<b>Neg</b>	04/03/2006

2005032098	Riverside Gateway Specific Plan and Streetscape Project Roseville, City of Roseville--Placer The City of Roseville seeks to adopt a specific plan for the Riverside Gateway area to revitalize Central Roseville's physical, economic, commercial, and residential segments.	FIN	
2005124001	Vegetation Clearing in the San Luis Rey River Flood Control Project U.S. Army Corps of Engineers Oceanside--San Diego The purpose of the proposed action is to enhance flow conveyance to the San Luis Rey River Flood Control Channel which currently provides less than optimal flood protection and reduce the risk of flood damage to life and property in the floodplain area of the tower 7.2 miles of the San Luis Rey River through the City of Oceanside, California. The vast volume of vegetation in the channel impedes the flow conveyance within the channel. By mowing and chipping vegetation in the river channel, the peak flow conveyance will be increased to minimize potential storm water outlets to the channel. This action will lessen the risk of flood water overtopping the levee and thus the potential of levee failure during significant storm	FIN

2006038023	Conversion of Open Loop Cooling Water Pumps to Variable Frequency Drive Units at the Henry J. Mills Water Treatment Plant Metropolitan Water District of Southern California Riverside--Riverside The project will consist of the conversion of the existing open loop cooling water pumps to Variable Frequency Drive controls. The extent of the modifications is to retrofit the power system with a variable frequency drive unit. The unit will be installed in an existing motor control center panel.	<b>NOE</b>	
2006038025	Lake Hennessey Culvert Repair Fish & Game #3 --Napa The Operator proposes to replace a 36-inch culvert and 12-inch downspout with a 72-inch culvert and 18-inch downspout on the south shore of Lake Hennessey on State Route 128, Napa County. The project is located approximately 2 miles east of the Conn Creek Bridge at post mile 9.5. SAA #1600-2005-0616-3.	<b>NOE</b>	
2006038027	Leasing of Office Space Motor Vehicles, Department of Riverside--Riverside The California Department of Motor Vehicles is proposing to lease 10,000 square feet of office space to house our East Riverside Field Operation.	<b>NOE</b>	
2006038121	Point Mugu State Park Reinforcement of Water Line and Road Parks and Recreation, Department of --Ventura The project will reinforce and re-cover a 8" diameter water line that was exposed during the sever winter storms of 2005. The project will also prevent loss of a park road adjacent to Sycamore Creek. A row of one to two ton rocks will be placed along the creek side of the water line, followed by a 3 foot thick layer of native soil taken from an old deteriorating earthen dam upstream. The soil will be stabilized by compaction and covering with erosion fabric, followed by installation of willow and mulefat stakes and brush boxes.	<b>NOE</b>	
2006098026	Lake Merritt Master Plan Fish & Game #3 Oakland--Alameda The City of Oakland plans to make improvements on the boathouse, which includes micropiles beneath the boathouse and removal of the concrete boat ramp. SAA #1600-2005-0539-3.	<b>NOE</b>

2006032024	<p>Gallo Vineyards - Sun Lake Ranch #P04-0446 - ECPA Napa County Napa--Napa Proposal for earthmoving activities and grading associated with new vineyard development. The erosion control plan #P04-0446 - ECPA was prepared in accordance with Napa County Code. The #P04-0446 - ECPA is designed to minimize disturbance and environmental effects in accordance with 18.108.070 of the Napa County Code. The ECPA has been filed for an approximately 54.9-acre vineyard within a 68.2-acre development area on a 221.5-acre parcel located off Pope Valley Road. There is an existing vineyard of about 58 acres on the parcel. The ECP is required because the slope of the land in question is greater than 5%. The proposed project consists of the earthmoving and/or grading activities occurring on slopes greater than 5% and installation of the designed ECPA features.</p>	<b>MND</b>	04/04/2006
2005102132	<p>Coyote Hills General Plan Amendment, Rezone, Subdivision Map, and Affordable Housing Plan Sacramento County --Sacramento The project consists of the following entitlement requests from Sacramento County: 1. A General Plan Amendment from General Agriculture (80-acre minimum) to General Agriculture (20-acre minimum) for approximately 274 acres. 2. A Rezone from AG-80 and AG-80(F) to AG-20 and AG-20(F). 3. A Subdivision Map to create 12 lots in the AG-20 zone. 4. An Affordable Housing Plan consisting of the payment of In-Lieu and Affordability fees.</p>	<b>NOP</b>	04/04/2006
2006031021	<p>County of San Luis Obispo Parks and Recreation Element Update San Luis Obispo County --San Luis Obispo The San Luis Obispo County Board of Supervisors has proposed an update of the General Plan Parks and Recreation Element. The primary objective of this project is to provide goals, policies and programs to guide the acquisition, development and operation of parks and recreation facilities throughout the County of San Luis Obispo.</p>	<b>NOP</b>	04/04/2006
2006031022	<p>Tentative Parcel Map 05-01, Coastal Development Permit 05-12 and Variance 7625 Laguna Beach, City of Laguna Beach--Orange The applicant is requesting approval of Tentative Parcel Map 05-01, Coastal Development Permit 05-12 and Variance 7205 to extend Thurston Drive and subdivide the existing 13.38 acre property into six parcels, three of which would be residential building sites. The application includes a request to extend Thurston Drive approximately 200 feet with new street paving, a cul-de-sac, retaining walls and on-street parking. The subdivision also includes one 9.64 acre lot devoted to open space, a lot dedicated for right-of-way purposes and a small common landscaping area lot. The proposed subdivision includes a request for a variance from Municipal Code Section 25.53 (Access and Improvement Requirements) to extend an existing nonconforming dead end street beyond the maximum allowed 750 feet.</p>	<b>NOP</b>	04/04/2006

All lots within the project will be serviced by public sewer and public water.	<b>Neg</b>	04/04/2006
2006032037	School Street Well Rehabilitation Elk Grove Water Service Elk Grove--Sacramento The Elk Grove Water Service (EGWS) currently owns and operates 14 groundwater-pumping facilities for supplying water to the City of Elk Grove, Sacramento County, California. The facilities range in age, production capacity, and water quality. Many of the wells have exceeded their expected life, and are being replaced or rehabilitated with new wells as part of a capital improvements program initiated by the EGWS in 2002. This project consists of the rehabilitation of the School Street Well. The School Street well site (Well Number 1) is located approximately 200 feet north of Elk Grove Boulevard, between the Union Pacific Railroad tracks and School Street in the City of Elk Grove. The rehabilitation of the School Street Well would require the demolition of an old redwood pump house located on the site that has potential historic value.	<b>Neg</b>	04/05/2006
1990020181	Precise Plan Area #20NW Modesto, City of Modesto--Stanislaus The applicant is proposing a vesting tentative subdivision map to divide an 8.45-acre property located on the southeast corner of Hillglen and Roselle Avenues into 39 lots. The subdivision is proposed to tie into the public circulation system via a local street connection to Hillglen Avenue, which is proposed to be developed as a part-width street. An emergency vehicle access is proposed along the south side of Lot 39.	<b>NOD</b>

2005081063	<p>ESPN Radio Towers Unclassified Conditional Use Permit Application No. 3111 Fresno County Clovis--Fresno</p> <p>The applicant proposes to construct three 401-foot high steel lattice towers supported by guy wires anchored to three footings, an 8-foot by 12-foot by 8-foot high prefabricated equipment building to serve all three towers, and a six-foot high chain link security fence enclosing each of the towers. Each tower will have an underground copper coil arrangement of 180-foot long wire radials in a 360-degree array that will be buried 18 inches underground. This would result in a total ground disturbance area of approximately nine acres. The towers will be unmanned and will be remotely controlled from a studio in Fresno. No other on-site facilities are proposed. The placement of project improvements conforms to the setback requirements for the AE-20 Zone District.</p>	<b>EIR</b>	04/20/2006
2004121015	<p>Upper Santa Clara River Arundo / Tamarisk Removal Plan (SCARP) Ventura County Resource County District --Ventura</p> <p>Upper Santa Clara River Watershed Arundo/Tamarisk Removal Plan developed for programmatic EIR/EA and permitting by the regulatory agencies - ACOE, USFWS, CDFG, and RWQCB for the 500-year floodplain of the mainstem and tributaries of the upper Santa Clara River (totals approximately 16,300 acres).</p>	<b>FIN</b>	
2006031026	<p>Coastal Development Permit No. 04-039 and Variance No. 05-044 IS No. 06-001 MND No. 06-003 Malibu, City of Malibu--Los Angeles</p> <p>The subject properties are located on the ocean side of Pacific Coast Highway, approximately 1.7 miles east of the Ventura County line, in a partially developed neighborhood within the coastal zone. The project consists of one application for a Coastal Development Permit to allow for development proposed on two properties (33064 and 33100 Pacific Coast Highway). The development proposed on the property located at 33064 Pacific Coast Highway includes a lot line adjustment, extensive grading, including approximately 23,949 cubic yards of non-exempt grading (totaling 22,442 cubic yards of cut and 1,507 cubic yards of fill). The proposed grading operations will result in the export of approximately 20,935 cubic yards of soil, the remodel of existing accessory structures, the refurbishment of an existing swimming pool, demolition of an existing tennis court, the construction of a new tennis court and tennis pavilion, and the installation of new landscaping. This parcel is 7.23 acres. A variance is requested to exceed the permitted non-exempt grading.</p>	<b>MND</b>	04/05/2006
2006032034	<p>Murray Design Review Marin County --Marin</p> <p>The applicant is proposing to construct a 2,361 square foot single-family dwelling (building area includes an attached 462 square foot attached garage) on an approximately 14,410 square foot, vacant parcel in Woodacre. As proposed, the dwelling would have a maximum height of 35 feet consisting of three levels (the two uppermost levels being living area with the lowest level being the garage). The dwelling would maintain the following minimum setbacks from corresponding property lines: 17 feet from the northeasterly front property line (along Redwood Drive); 33 feet from the northwesterly side property line; 35 feet from the southeasterly side property line; and 80 feet from the southwesterly rear property</p>	<b>MND</b>	04/05/2006

	line. The proposed single-family dwelling would maintain a setback of approximately 73 feet from the top of bank of Woodacre Creek (a tributary creek to San Geronimo Creek), which is located across Redwood Drive to the northeast. Proposed building materials include dark gray/green composition shingle roofing and natural weathering wood shingle siding. Also proposed is construction of an on-site drainage infiltration system, a driveway with pre-cast "cobblestone" over permeable base, and an on-site sewage disposal system to serve the new residence.		
2006032036	Castro Valley General Plan Alameda County --Alameda Alameda County has initiated a comprehensive update of the Castro Valley General Plan, providing an opportunity to explore long-term goals and development opportunities for the urbanized portion of the Castro Valley Planning Area. As required by State Law, Alameda County's General Plan serves as the "constitution" for the physical development of the County. The County's Plan consists of a series of area plans that apply to specific unincorporated communities and geographic areas as well as several countywide elements. The Castro Valley General Plan is one of the Area Plans that comprise the Alameda County General plan and, as such, State law does not require that it deal with the full range of issues the State law requires a city or county General Plan to address. The Plan must, however, be consistent with all countywide Plan elements including Housing, Noise, and the Resources, Open Space, and Agriculture (ROSA) Plan.	<b>NOP</b>	04/05/2006
2006031023	Rancho Estrella Specific Plan San Jacinto, City of San Jacinto--Riverside The proposed project consists of 81.6 acre Rancho Estrella Specific Plan (SP 2-05), Change of Zone 8-05, Tentative Tract Map #33141, and subsequent grading of approximately 117,000 cubic yards of earth, construction of a maximum of 283 single family residences, and the construction of parks, roads and other urban infrastructure necessary to support the residential development.	<b>Neg</b>	04/05/2006
2006031024	CP I-215 Business Park Perris, City of Perris--Riverside Zone Change that would convert 27.32 net acres of land designated CC (Commercial Community) to Planned Development Overlay. Tentative Parcel Map 34082 (05-0334) is a proposal to subdivide 27.32 acres into 21 lots ranging from 17,028 square feet to 180,943 square feet, including 4 lots for condo purposes. Development Plan Review 05-0335 is a proposal to construct a 387,993 square foot mixed use development that will consist of 10,843 square feet of retail, 202,618 square feet of warehouse/distribution uses and 170,268 square feet designated for multi-use and appurtenances.	<b>Neg</b>	04/05/2006

<b><u>Documents Received on Wednesday, March 08, 2006</u></b>			
2006032044	Emerald Bay Cable Project Parks and Recreation, Department of South Lake Tahoe--El Dorado Sierra Pacific Power Company and AT&T (formerly known as SBC) plan to install electric and fiber optic cables under Emerald Bay and to connect them to existing overhead facilities located on either shore of the bay.	<b>Neg</b>	04/06/2006
2004062013	Oak to Ninth Mixed Use Development Community & Economic Development Agency Strategic Planning Division Oakland--Alameda The project would construct approximately 3,100 residential dwelling units (a mix of flats, townhomes, and lofts) on 13 development parcels. Approximately 200,000 square feet of ground-floor retail/commercial space would be distributed throughout each of the 13 development parcels and would be designed to provide a variety of active retail, restaurant, service and small office uses to support the new residential neighborhood and serve visitors to the site. Approximately 28.4 acres (or 44 percent) of the site would be developed with parks and open spaces, including an existing 7.7-acre park (Estuary Park). The project would demolish a maximum of 165,000 square feet of the existing 180,000 square-foot Ninth Avenue Terminal building (an historic resources) to create the largest (9.7 acres) of a series of interconnected parks and waterfront space.	<b>Oth</b>	
2002102057	Proposed Amendment of LUP# 022026 for BMPC at WCCSL Contra Costa County --Contra Costa Transfer Station with a permitted tons per day of 1,000 with a peak of 1400 tpd. Tonnage is not to exceed 7,000 tons per week. Vehicles are limited to 1706 vehicles per day.	<b>NOD</b>	
2003022113	Bidwell-Sacramento River State Park Preliminary General Plan Parks and Recreation, Department of --Butte, Glenn The proposed project consists of the development of a new General Plan for Bidwell-Sacramento River State Park. The General Plan will guide future management direction at the Park over an approximate 20-year planning horizon. The General Plan contains a comprehensive and integrated set of park-wide goals and guidelines for the long-term management of the Park that focuses on protection of environmental resources, enhancements to visitor use and opportunities, and improvements to administration and operations of the Park. In addition, the General Plan provides a spatial dimension to Park planning through the use of area concept planning, which includes area-specific management and facility prescriptions for the subunits and potential property additions that have been considered in the planning process. A range of new recreation facilities are proposed at the Park, which include, but are not limited to, overnight campgrounds, day-use areas, trails, and a visitor center.	<b>NOD</b>	
2005011114	Aliso Ridge Mixed Use Development Mission Viejo, City of --Orange Zone Change ZC2005-17 and Development Agreement DA2005-2 filed by Steadfast Companies and Target Corporatin for the future development of 144 attached townhome units on approximately 10.0 acres of undeveloped land and a +/-140,791 square foot retail building on approximately 13.4 acres of undeveloped land. The site is a total of 23.4 acres of undeveloped land.	<b>NOD</b>

2005062110	Twin Ponds Drainage Pump Stations Modesto, City of Modesto--Stanislaus This project includes construction of two storm water pump stations at two existing storm water detention basins. Storm water will be pumped out of the existing basins and into Modesto Irrigation District's Lateral #6.	<b>NOD</b>	
2005092104	Cameron 5 (P05-052) Sacramento, City of Sacramento--Sacramento Tentative Map and Special Permit to construct 22 single-family homes and 4 half-plex lots. General Plan Amendment to redesignate the site from Parks-Recreation-Open Space to Low Density Residential; and Community Plan Amendment to redesignate the site from Parks/Open Space to Residential; a Rezone of the site from Rural Estates to Single Family Residential; and Inclusionary Housing Plan.	<b>NOD</b>	
2005092108	City of Palo Alto Landfill Permit Revision: Combining CPA Solid Waste Facility Permit (SWIS 43-AM-0001) and Standardized Composting Permit (SWIS 43-AA-0014) Palo Alto, City of Palo Alto--Santa Clara New permit to combine the Landfill Disposal Site and composting Facility that will accept municipal solid waste and green material up to 530 tons per day, into one permit. Permitted traffic not to exceed 475 vehicles per day.	<b>NOD</b>	
2006011009	Transportation Access Improvement Project Camp Sugar Pine Fish & Game #4 --Madera Construct a new service road, expand an existing parking lot, construct a new pedestrian stream crossing, install two bridge crossings, culvert and cover a portion of a tributary culvert and cover a portion of the creek for a larger parking lot. The parking lot requires re-aligning the creek.	<b>NOD</b>	
2006011062	Snowline Young Adult Center San Bernardino County, Superintendent of Schools --San Bernardino The project would entail the construction of a new young adult center, to provide special education services to approximately 52 mildly handicapped young adults, ranging in age from 18 to 22.	<b>NOD</b>	
2006011130	Dept. Water Resources Nonproject Water Interim Renewal Contract w/Reclamation and Cross Valley Canal Contractors Water Resources, Department of Fresno, Tulare, Bakersfield--Fresno, Tulare, Kern To provide interim water service conveyance for Cross Valley Canal-Central Valley Project contractors. The project will allow short-term use of California State Water Project facilities to convey CVP water to the CVC contractors. In accordance with an approved water delivery schedule, federally contracted CVC water supplies will be conveyed from the Clifton Court Forebay at the Sacramento-San Joaquin Delta, through the SWP facilities, to the Cross Valley Canal turnout in Reach 12E of the California Aqueduct or to other points of diversion mutually agreed to in writing by DWR and the CVC contractor. The CVC water supplies may also be conveyed to the San Luis Reservoir as part of the federal share of storage for later release and delivery to the CVC contractor.	<b>NOD</b>

<b><u>Documents Received on Wednesday, March 08, 2006</u></b>			
	wind and weather. - Provide firm and stable path through barn for visitor access. - Add hog wire to existing "work bench" area to allow access through "work bench" area single door to enable controlled visitor viewing of barn interior when barn doors are closed. - Support wagons on conservator-approved stands under axels to prevent wheel collapse. - Spread gravel over dirt surface to cover stand bases and decrease dust in barn interior.		
2006038145	Service Connection CENB-54 and the South Coast Feeder Shutdown Metropolitan Water District of Southern California Downey, Long Beach--Los Angeles The Metropolitan Water District of Southern California proposes to enter into a Service Connection Agreement with the Central Basin Municipal Water District, which will allow for the installation of a 14-inch butterfly valve on the South Coast Feeder. The installation of the butterfly valve will necessitate the temporary shutdown and dewatering of the South Coast Feeder. Also, Metropolitan proposes to conduct eddy inspection on the pipeline, during this shutdown.	<b>NOE</b>	
2006038146	Perris Pressure Control Structure and Pump Back Facility Temporary Shutdown and Dewatering for Routine Inspection, Maintenance and Repair of Facility Components Metropolitan Water District of Southern California Riverside--Riverside The project will consist of the periodic shutdown and dewatering of facility components in order to accomplish routine inspection, maintenance, repair and alteration of equipment as needed. Maintenance and repairs to equipment include but are not limited to replacing components on diesel and electric pumps and involves no expansion of existing use. Less than 1 acre-foot of raw water will be discharged and pumped out of affected pipelines to a lined v-ditch outside of the Perris Facility and then will continue into an unlined channel which runs west on the north side of the Ramona Expressway in the City of Perris.	<b>NOE</b>	
2006038147	Periodic Repair of the Lakeview Pipeline Metropolitan Water District of Southern California Unincorporated--Riverside The Metropolitan Water District of Southern California proposes to periodically repair Metropolitan's Lakeview Pipeline. Metropolitan proposes to dewater and repair a portion of the pipeline that is leaking. Water within the pipeline will be discharged to the San Jacinto River and to a Metropolitan-owned catch basin identified as PC-1. Activities, including welding and mortar patching, will be performed from inside the pipeline to repair the leaking areas.	<b>NOE</b>	
2006038148	Henry J. Mills Reservoir and Combined Filter Effluent Sample Line / Instrumentation Improvements Metropolitan Water District of Southern California Riverside--Riverside The project will consist of improving on-line water quality measurements by installing new sample lines, installing a new chlorine analyzer and relocating existing combined filter effluent on-line water quality instruments. The project consists of repiping and relocating instrumentation and adding some new instrumentation into existing structures.	<b>NOE</b>

<b><u>Documents Received on Wednesday, March 08, 2006</u></b>			
2006038149	Henry J. Mills Water Treatment Plant Diffuser Replacement Project Metropolitan Water District of Southern California Riverside--Riverside The project proposes to modify the existing filter backwash hypochlorite diffuser in all of the filters in Modules 3 and 4 of the Mills facility. The modifications consist of extending the diffuser pipe into the lower gullet of the filters. The work area is encased in a concrete structure. Any water that must be drained from the filters will be sent to existing spill tanks. Discharge water will be tested for pH and if necessary will be trucked and disposed offsite. This project involves no expansion of existing use.	<b>NOE</b>	
2006038150	Colorado River Aqueduct (CRA), Reservoir and Discharge Line Isolation Gates Project Metropolitan Water District of Southern California --San Bernardino, Riverside The Metropolitan Water District of Southern California proposes to add fifteen additional siphon isolation gates to ensure adequate isolation capability on all reaches of the CRA; two reservoir isolation bulkheads for repairs on the CRA upstream of the Gene Wash and Copper Basin reservoirs; four pump discharge line isolation gates for repairs of a pumping plant head gate or discharge line while maintaining partial flow out of adjacent lines; and twenty bypass line gates to isolate individual pump discharge lines. The project also consists of the installation of mounting flanges on the face of the conduit portals leading into the reservoirs to accept the 16-foot diameter reservoir isolation gates; installation of guides and operators, at each pumping plant's surge chamber, to open and close the bypass line isolation gates; and installation of new monorail cranes at the top of the surge chambers to allow installation of a pump discharge isolation gate in either one of these discharge lines.	<b>NOE</b>	
2006038151	San Jacinto Diversion Structures and Warren Gates Rehabilitation Project Metropolitan Water District of Southern California San Jacinto--Riverside The Metropolitan Water District of Southern California proposes to recoat three slide gates and three radial gates, including repairing any corroded steel members. Metropolitan also proposes to replace slide gate operators with new hydraulic operator systems; refurbish the electrical system that provides power to the slide gates with new cables, switches and panels; replace a deteriorated portable backup generator with a permanently mounted model; and install a new flow meter at the San Jacinto Diversion Structure.	<b>NOE</b>

2006031033	Wastewater Treatment Plant Master Plan Revision and Upgrade ER0212A / DR 0540 Lompoc, City of Lompoc--Santa Barbara Master Plan Revision and Plant Upgrade for the Lompoc Regional Wastewater Reclamation Plant to meet discharge requirements of the Regional Water Quality Control Board. The project will provide redundancy and does not extend beyond the existing Wastewater Reclamation Plant boundaries.	<b>Neg</b>	04/07/2006
2006031034	Road and Bank Replacement Project, Mojave River Victor Valley Wastewater Reclamation Authority Victorville--San Bernardino During the period of December 27, 2004 to January 11, 2005, severe storms washed out an embankment that extended 195 feet around the Oro Grande Sewage Pump Station, operated and maintained by the Victor Valley Wastewater Reclamation Authority (VWVRA). On very short notice, a VWVRA contractor to provide temporary material in an effort to protect the pump station from being damaged by flooding and causing a release of raw sewage to the Mojave River. FEMA provided funding for emergency protective material in project SB-VW3B. The proposed project will remove the temporary material (1,721 CY) and replace with 162.5 CY (195 ft. x 15 ft. x 1.5 ft.) of rip rap and 325 SY (195 ft. x 15 ft.) of fabric to be placed under the rip rap. The proposed embankment protection will replace material (fill) washed away during the flood event and will prevent future washouts during future flood events.	<b>Neg</b>	04/07/2006
2006031035	City of Corcoran Pre-Zoning and Annexation 2006-A (Moonlight Annexation). Corcoran, City of Corcoran--Kings The City of Corcoran proposes the annexation of two separate properties just north of the City. The larger property totals approximately 105 acres and lies along the east side of Avenue 6 1/2 between Niles Avenue and Orange Avenue. The smaller property is approximately 29 acres at the northeast corner of State Highway 43 and Avenue 5 1/2. The land is in Section 10, Townships 21 and 22 South, and Range 33 East of the Mount Diablo Baseline and Meridian. The larger property is currently planted in alfalfa and is actively farmed. The smaller property contains a combination of fenced pasture and residences.	<b>Neg</b>	04/07/2006
2006031036	Milliken 1010-2B Prestressed Concrete Reservoir, PWA Contract No. UT 0506-06 Ontario, City of Ontario--San Bernardino The construction of one (1) 9 million gallon above ground reservoir for the City of Ontario. The work will consist of clearing, grubbing, and earthwork, construction of a reservoir, inlet and outlet piping and miscellaneous site improvements. The installation of electrical, lighting, and telemetry equipment is included.	<b>Neg</b>	04/07/2006
2006031037	Bolsa Chica Channel Constructed Wetlands Orange County Seal Beach, Huntington Beach, Westminster--Orange The objectives of the project are to reduce pathogens, metals, and pesticides in Anaheim Bay and Huntington Harbor and to restore and maintain its beneficial uses through wetland construction.	<b>Neg</b>	04/07/2006

	the Specific Plan which is a policy and regulatory document governing development in the Plan Area; rezoning/rezoning approximately 187 acres to SP-3 (Specific Plan No. 3) Zone District; annexation of territory to the City and Non-succession to a Williamson Act Contract; detachment from the Oakdale Rural Fire Protection District and phased detachment from the Oakdale Irrigation District.		
2003112060	Delta Water Supply Project Stockton, City of Stockton--San Joaquin On April 18, 1996, the City of Stockton filed Application 30531 for a water right permit authorizing the appropriation of water diverted from the San Joaquin River for municipal and industrial purposes. The City's Delta Water Supply Project (DWSP) is a new supplemental water supply for the City's metropolitan area. The proposed total amount of water to be appropriated under originally filed Application 30531 was limited to 125,900 acre-feet per annum (afa), to be diverted at a maximum diversion rate not to exceed 317 cubic feet per second (at build-out in 2050). The water to be diverted from the source, San Joaquin River, will be: (a) treated wastewater discharged into the San Joaquin River at the City's Regional Wastewater Control Facility, and (b) additional amounts. The City proposes to appropriate treated wastewater discharged into the San Joaquin River pursuant to the provisions of Water Code section 1485, and to appropriate additional amounts under claim of seniority pursuant to Water code section 11460. The DWSP proposes to incrementally develop in phases the supplemental water supply that the City seeks to appropriate pursuant to Application 30531. During Phase 1, the City proposes to construct a new water intake facility in the San Joaquin River (POD #1 described under Application 30531), raw water and treated water transmission lines and a new water treatment plant capacity under Phase 1 development would be 30 million gallons per day (mgd), or 33,600 afa. Ultimately, by 2050, the new water treatment plant would be expanded to treat 160 mgd, which includes the maximum diversion applied for under Application 30531 of 125,900 afa.	<b>NOD</b>	
2004022045	Christensen Subdivision Napa, City of Napa--Napa The Operator proposes to install a 65-linear foot pedestrian bridge over Salvador Channel. The abutments will be approximately 20 feet outside the top of the bank on the east side and 10 feet outside the top of bank on the west side of the channel. The bridge is prefabricated and will be set on the abutments and bolted in. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0700-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Dan Hughes / Delco Builders and Developers.	<b>NOD</b>	
2005041153	LAUSD South Region Middle School #2 Los Angeles Unified School District Bell--Los Angeles The proposed project would provide 1,404, two-semester seats for students in grades 6-8. The project would include the development of approximately 122,404 square feet of building space, including 52 classrooms, a multi-purpose room, food services, a library, a gymnasium, administrative offices, and subterranean parking for faculty and staff. Recreational playfields will be provided onsite. The proposed facilities will be available for community use after school hours.	<b>NOD</b>

2006031049	<p>Hidden Creek Estates Los Angeles City Planning Department --Los Angeles</p> <p>Development of the proposed project would include the construction of 188 single-family residences, associated roadways and infrastructure, a 17-acre public park and a new 26-acre equestrian boarding facility on approximately half of the total 259-acre project site. The majority of the residential lots would be clustered on a graded, centralized plateau currently used for ongoing filming operations and grazing. Hidden Creeks Estates is planned as a gated community with 183 single family residential lots and five residential equestrian lots along with a public park and an equestrian facility. The undeveloped portion of the project site would be preserved as parkland and open space. The envelope of open space surrounding the project would buffer the proposed residential development from the existing community of Porter Ranch to the east and south and would complement adjacent open space areas, including the Michael Antonovich Parkland, which lies just beyond the northern and western boundaries of the project site.</p>	<b>NOP</b>	04/11/2006
2006031057	<p>Consolidated Fire Protection District Headquarters Complex Los Angeles County Fire Department Los Angeles, City of--Los Angeles</p> <p>The County of Los Angeles Consolidated Fire Protection District has proposed the development of a new headquarters complex in the east central portion of Los Angeles. Elements of the proposed project would include the development of an approximately 185,000-square-foot Leadership in Energy and Environmental Design (LEED) certified building. The core area of the building consists of a lobby, administrative offices, an auditorium and a museum. An approximately 147,722-square foot multilevel parking structure with 352 spaces would partially be constructed below grade. The proposed project would also include an approximately 107,000-square foot office building. The construction of an access roadway connecting the proposed project site to Sheriff Road is an element of the proposed project that would serve as the primary means of vehicular ingress/egress.</p>	<b>NOP</b>	04/11/2006
2006031048	<p>Tentative Tract TT-06-017 Victorville, City of Victorville--San Bernardino</p> <p>TT-06-017 - To allow for a 91-lot single-family residential subdivision on approximately 25 gross acres of vacant land.</p>	<b>Neg</b>	04/11/2006
2006031050	<p>New 5-MG Reservoir in the City of Calimesa Yucaipa Valley Water District Yucaipa--Riverside</p> <p>The proposed project consists of the construction of new 5-million gallon (MG) reservoir (R-12.4) in the City of Calimesa. The new reservoir would be partially buried concrete tank located on a five-acre site along Singleton Road in the City of Calimesa. The reservoir is being constructed as part of Tentative Tract 26811, a residential subdivision of approximately 294 single family residences and 24 acres of open space on approximately 135 acres. A CEQA Mitigated Negative Declaration was prepared for the entire development, including the grading of the parcel on which the reservoir would be constructed. This Initial Study addresses the impacts of the construction and operation of the reservoir, by the YVWD, after the site has been graded by the developer.</p>	<b>Neg</b>	04/11/2006

2006031051	Buhach/Ashby Road Intersections Project Merced County Atwater--Merced Merced County has identified the need to address traffic operational issues on Ashby Road in the vicinity of Buhach Road and SR 99 on and off-ramps. At this location, Ashby Road runs in an east-west direction roughly parallel to SR 99. Three closely spaced intersections exist: Ashby Road/ North Buhach Road/ Northbound SR 99 ramps, Ashby Road/ Buhach Road, and Ashby Road/ Southbound SR 99 ramps.	<b>Neg</b>	04/11/2006
2006031052	Lakeland Village Water Distribution System Improvement Project Elsinore Valley Municipal Water District Lake Elsinore--Riverside The proposed project includes the installation and upgrade of the existing water conveyance system to comply with the 2002 Water Distribution Master Plan. The project includes several components from the demolition and replacement of reservoirs and pump stations to the new installation of distribution pipelines. The project would include the demolition of the existing Cotrell Pump Station; the demolition of the existing 20,000-gallon Cottrell Reservoir and the demolition of the existing Adelfa Pump Station. The project would include the construction of a new 800 gpm Adelfa Pump Station; the construction of a new 0.80 MG Adelfa Reservoir and a new 750 gpm Encina Pump Station. The proposed project components are designed to meet year 2020 water demands within the Districts service area.	<b>Neg</b>	04/11/2006
2006031053	Conditional Use Permit 05-10 and Tentative Parcel Map 063169 Lancaster, City of Lancaster--Los Angeles The proposed project involves the development of a shopping center consisting of approximately 151,546 square feet of commercial/retail space, including a 95-room Springhill Suites. The proposed project would consist of six buildings ranging in size from 5,000 square feet to 25,471 square feet. Included is a request to parcel the proposed development into seven parcels ranging in size from approximately 0.79 acres to 2.81 acres for financial purposes. The proposed project would provide parking per the City Municipal Code, lighting, landscaping, etc. Bicycle racks would be provided at two locations within the development.	<b>Neg</b>	04/11/2006
2006031054	Tentative Tract Map Nos. 062120 and 061921 Lancaster, City of Lancaster--Los Angeles The proposed project consists of two adjoining residential subdivisions: TTM 062120 and 061921. TTM 062120 involves the construction of 316 single family residences and TTM 061921 involves the construction of 75 single family residences.	<b>Neg</b>	04/11/2006
2006031055	Olson Company Residential Development at Signal Hill Signal Hill, City of Signal Hill--Los Angeles Demolition of existing commercial and industrial buildings and construction of 54 townhome style condominium dwellings with private, attached garages. Includes general plan and zoning ordinance amendments to allow residential development.	<b>Neg</b>	04/11/2006

<b><u>Documents Received on Monday, March 13, 2006</u></b>			
2006031056	Design Review- Tentative Tract Map No. 33140/ Mitigated Negative Declaration MND No. 2005-10 Lake Elsinore, City of Lake Elsinore--Riverside The applicant is proposing construction of a new single family residential tract. The tract will consist of 105 residential lots on 72 acres; 36.1 acres of the project site will be left as open space. The project site is designated R-1 (Single Family Residential) on the City's General Plan and Zoning Map. The average lot size is 14,752 square feet, with a minimum lot size of 7,200, per the City's requirement. There is an existing water tank site that is to remain. Twelve lots will be landscaped under the H.O.A. to maintain the slopes of the project. There will be 27 lots with views of the Lake.	<b>Neg</b>	04/11/2006
2006032060	Kemper Oaks Unit 2 (PSUB T20050842) Placer County Planning Department Auburn--Placer Proposed Planned Development for 47 single-family lots. The average lot size is approximately 8,300 sf with a minimum of 6,102 sf and a maximum of 16,222 sf.	<b>Neg</b>	04/11/2006
2006032061	South Arkansas Creek Use Permit and Reclamation Plan for Surface Mining Operation Amador County Plymouth--Amador Use Permit and Reclamation Plan for surface mining operations consisting of reactivation of the mining previously mined auriferous (gold-bearing) aggregate. Washing (in a portable plant with the recovery of gold) and marketing of sand and gravel are significant parts of the project. There will be quarrying and processing of meta-volcanic rock with quarry advances using conventional methods that include periodic drilling and blasting of the rock. The processing will consist of crushing and screening through portable plants that will be moved toward the quarry rim as it advances. The plants will be fed by a front-end loader and/or excavator. The project may extend into a 20 acre B.L.M. parcel. This mine project area consists of approximately 124+/- acres out of a 232+/- site located on the south side of HWY 16 about 1.5 miles east of the Amador/Sacramento County line.	<b>Neg</b>	04/11/2006
2006032062	Johnson Trust Lot Line Adjustment Humboldt County Community Development Services Eureka--Humboldt A lot line adjustment to reconfigure three (3) separate legal parcels to allow more appropriate access and building sites on the two undeveloped parcels. Existing residential development will all be sited on proposed Parcel 2. Area is served by community water and sewer. There are considerable slopes encumbering the property which may require the preparation of an R-2 Soils Report to determine site suitability. House sites have been identified on this map above the 20% break in the slope. Although the LLA will not result in any parcels becoming more subdividable than they currently are, give the slopes, the typical CEQA exemption for LLAs (Section 15305(a)) does not apply.	<b>Neg</b>	04/11/2006
2006032063	Little River Airport Improvement Project Mendocino County Department of Transportation --Mendocino As part of the Little River Airport Layout Plan, the County desires to install an Automated Weather Observation System (AWOS), install approximately 2,500 lineal feet of six-foot chain link fencing along Runway 29 end, and two electronically	<b>Neg</b>	04/11/2006

	operated gates near airport office to control access to ramp and parking areas. The purpose of the AWOS installation is to provide accurate 24 hr/7 day per week weather information for the flying community. The fencing project would enhance safety at the airport by preventing inadvertent runway incursions. The gates at the ramp and parking areas would enhance safety by preventing unauthorized access to the ramp and runway/taxiway areas.		
2006032064	Honig Vineyard & Winery, LLC (Use Permit #P05-0424-MODMJR) Napa County --Napa The proposal will modify Use Permit #93271-MOD to allow an increase in the approved annual production from 150,000 gallons per year to 300,000 gallon per year; to construct a new 5,6325 square feet barrel storage building with up to 15 portable outdoor storage tanks and related mechanical equipment and pads; to add a 1,900 square foot mezzanine to the existing bottling building for storage and administrative support staff offices resulting in an approximately 30,000 square feet winery; to expand the existing crush pad area with a new awning cover; to increase full-time employees from 17 to 20 with 6 part-time employees; relocate and add 10 parking spaces for a total of 25; and construct and related improvements including new septic tank and leach fields and access road improvements.	<b>Neg</b>	04/11/2006
2002039001	GWF Henrietta Peaker Project Energy Commission --Kings The project is a nominal 91.4-megawatt, simple-cycle power plant, on a seven-acre fenced site within a 20-acre parcel. The project will consist of the power plant, an onsite 70-kV switchyard, and approximately 550 feet of new 70-kV transmission line. Natural gas for the facility will be delivered via approximately 2.2 miles of new 12-inch pipeline that will connect to the existing Southern California Gas Company (SoCalGas) Line 800 transmission pipeline, approximately one mile south of the intersection of 25th Avenue and the Avenal Cutoff.	<b>NOD</b>	
2004062128	Willows Wal-Mart Project Willows, City of Willows--Glenn The new Supercenter will contain a grocery component of about 45,951 square feet, and a Tire and Lube Express, as well as a garden center of approximately 14,479 square feet (including 9,581 square feet of hard-fenced outdoor garden center). The use also includes outdoor sales as well as a seasonal sales area in a portion of the parking lot. Along the front of the Supercenter will be series of small internal "shops" occupying a total floor area of approximately 10,499 square feet. Some of these spaces will be occupied by Wal-Mart services such as optical and pharmacy, while others will be leased to non-Wal-Mart vendors and service providers (e.g., bank, hair salon, dry cleaners, etc.), although vendors have not been identified. The Supercenter will also include sales of alcohol (for off-site consumption). The new Supercenter will be open 24 hours per day, seven days per week. Through a lot line adjustment, two separate parcels or "pad sites" will be configured along Wood Street (State Route 162) at the very front of the Supercenter site. These two parcels are designed to provide for a single fast-food restaurant with drive-through window, and a fuel station. The fuel station will have 12 fueling positions located in the southwest corner of the site near the Wood Street/North Airport Avenue intersection. The fuel station is anticipated to be constructed concurrently with, or very shortly after, the Wal-Mart. The entire project site is zoned "CG General Commercial with a PD Overlay."	<b>NOD</b>

	significant air quality benefits in the Sacramento Valley. The point of diversion is the Wilkins Slough Pumping Plant which is a screened facility. No new construction of pumps, diversion structures or conveyance systems are required and the lands to be flooded are currently irrigated.		
2006012106	Deer Creek Phase II (Tentative Subdivision Map No. 04-08) Oroville, City of Oroville--Butte Subdivide an approximately 30-acre site into 79 lots for construction of single-family homes (APNs 031-070-051, 085, and 086).	<b>NOD</b>	
2006012128	Lendahl Minor Subdivision and Lot Size Modification Exception Request Humboldt County Community Development Services Eureka--Humboldt The Minor Subdivision of a 6.23 acre parcel into two parcels of 4.45 and 1.78 acres each. The smaller parcel is currently developed with a residence, attached garage and on-site wastewater system. The larger parcel has a limited building envelope due to the 100' Streamside Management Area setback to the unnamed perennial creek that flows through the north end of the parcel. No SMA setback reductions are proposed. The applicant does propose a lot size modification exception per §314-99.1.2, HCC, to allow Parcel 2 to be below the standard 2.5 acre minimum given the topographic constraints of the property. New development will be served by individual on-site sewage disposal system and community water. The parcel is accessed by Cummings Road, a paved County road of 20' width.	<b>NOD</b>	
2006012147	Barnum Timber Company Conditional Use/ Surface Mining Permits & Reclamation Plan Humboldt County Community Development Services --Humboldt Approval of Conditional Use/ Surface Mining Permits and a 15-year Reclamation Plan for the Baker Creek Quarry. Approval will allow for the commercial production of run-of-mine hardrock aggregate products from an existing quarry where production has been limited to the support of Barnum Timber Company's timber and land management operations, i.e. the repair and maintenance of roads. The quarry has been operated since the 1950s. The present quarry covers approximately 3 acres; the mineral reserve covers 11 acres. The volume of available material is estimated at an excess of one million cubic yards. At an anticipated annual rate of extraction of 50,000 cubic yards, the quarry would have a life expectancy of 20 years. Annual production will vary with market conditions and the need for on-site road maintenance. Baker Creek is a perennial stream north of the project site and is within an approximate 50 feet of the operating area. There will be no excavation below the adjacent stream elevation. Quarry operations involve excavation by ripping and pushing broken rock over the hillside to the stockpile area where run-of-mine rock will be loaded into highway transports. There will be limited drilling and blasting and no processing of the excavated material.	<b>NOD</b>	
2006039012	Baumgartner Parcel Map; TPM 20764RPL2; Log No. 03-08-046 San Diego County Department of Planning and Land Use --San Diego The project is a minor subdivision of 6.14 acres into two single-family residential lots of 3.68 and 2.41 acres gross with a shared driveway from an off-site private drive cul-de-sac.	<b>NOD</b>

**Documents Received on Tuesday, March 14, 2006**

2002121014	Westside Parkway Project Bakersfield, City of Bakersfield--Kern The proposed project is an amendment to an adopted Specific Plan Line for a new east-west freeway extending from Heath Road to a location near SR 99, a distance of approximately 8.1 miles in the City of Bakersfield and unincorporated Kern County. The project includes the extension of Mohawk Street south from Rosedale Highway, across the Kern River to Truxton Avenue. Interchanges are proposed at Allen Road, Calloway Drive, Coffee Road, and Mohawk Street. Two options are being considered for the eastern terminus of the project; the Truxton Option which connects directly into Truxton Avenue west of SR 99 and the Oak Option which connects to Oak Street east of SR 99. Sufficient right of way is being acquired for the Westside Parkway to accommodate an ultimate eight-lane facility; however, at this time traffic projections warrant four lanes from Heath Road to Allen Road, six lanes from Allen Road to Coffee Road, eight lanes from Coffee Road to Mohawk Street and six lanes from Mohawk Street to the eastern terminus. The project requires an amendment to the Specific Plan Line adopted previously for the project known as the Kern River Freeway, which this project replaces.	<b>EIR</b>	04/27/2006
2003112018	Interstate 5/French Camp Road Interchange and Sperry Road Extension Project Stockton, City of Stockton--San Joaquin The proposed project includes reconstruction of the Interstate 5/French Camp Road Interchange, extension of Sperry Road from Performance Drive to French Camp Road, and relocation of Mantney Road. There are two build alternatives.	<b>EIR</b>	04/27/2006
2005081007	Alondra Center North Redevelopment Project La Mirada, City of La Mirada--Los Angeles The La Mirada Redevelopment Agency is proposing the redevelopment of the Alondra Center North Retail Shopping Center into a 4.186-acre residential neighborhood that is currently developed with commercial uses. The proposed project will necessitate the acquisition of the 11 parcels and the demolition of the existing commercial uses. Project implementation includes the redevelopment of the subject property with 44 single-family detached residential dwelling units. Three floorplans are proposed. Plan 1 is 1,700 square feet (1,917 square feet with the "loft"); Plan 2 is 2,021 square feet (2,354 square feet with the "loft"); and Plan 3, which does not have a loft element is 2,232 square feet. Each home will be two stories, although Plan 1 and Plan 2 have been designed to include a "loft" element that extends above the second floor of the unit. All of the proposed homes will have attached two-car garages. Each of the dwelling units will also have driveways, which will be supplemented by additional guest parking that will be available on the private driveway on the northern portion of the 4.186-acre site.	<b>EIR</b>	04/27/2006
2006031062	Proactive Properties 80 Acres Twentynine Palms, City of Twentynine Palms--San Bernardino TTM 17798, the subdivision of 97.4 acres into 336 lots for future development of single family homes. The site is zoned RS-4. The project proposes 3.4 dwelling	<b>MND</b>	04/12/2006

	units per acre which is less than the maximum of 4.0 per acre allowed by the General Plan.		
2005042070	General Plan Amendment/Planned Development Rezoning File No. GP/GPT06-04-01/PDC03-108 San Jose, City of San Jose--Santa Clara Applicant proposes to change the General Plan Land Use/Transportation Diagram designations from Combined Industrial/Commercial on approximately 24.4 acres to Transit Corridor Residential (20+ du/ac) with a Flexible Land Use Boundary; increase building height from 120 ft. to 150 ft. on the portion of the site south of Berryessa Road; and add a Major Collector roadway through the project site between Mabury and Berryessa Roads. The Medium Density Residential (8-16 du/ac) on 8 acres and the Public Park/Open Space on 22.8 acres will remain unchanged. The project also proposes to rezone the site from A(PD) Planned Development Zoning District, IP Industrial Park Zoning District and A Agriculture Zoning District to A(PD) Planned Development Zoning District to allow the development of up to 2,818 residential units and up to 215,622 sq. ft. of combined/industrial uses on the north side of Berryessa Road and up to 152,700 sq. ft. of retail uses on the south side of Berryessa Road.	<b>NOP</b>	04/12/2006
2006031060	The Canyons Bakersfield, City of Bakersfield--Kern The proposed project is the development of a mixed-use residential community on approximately 890 acres that includes: approximately 1,280 single-family residential dwellings; 120 multi-family residential dwelling units; a 8.15 acre site for general commercial development; a 28.18-acre site for semi-public recreation; a private recreation center; three public parks totaling 17.33 acres; 9 miles of public trails, 2 miles of public bike path; approximately 42 acres of maintained common area and approximately 284 acres of open space. The proposed project also includes construction of off-site roads and public utilities.	<b>NOP</b>	04/12/2006
2006032068	White Property Specific Plan Fort Bragg, City of Fort Bragg--Mendocino The project proposes to annex, rezone, and develop the 69 +/- acre property with a total of 288 single- and multi-family residential units on 34.4 acres, a 1.3-acre area for wetland preservation, an 11.2-acre area as a wetland buffer, an 11.4-acre area as open space, and associated landscaping, parking, and roadway and utility improvements. Residential densities would range from 6 to 21 units per acre, with an average of 8.4 units per acre. Approximately 48 of these units would be set aside for very low to moderate income households.	<b>NOP</b>	04/12/2006
2005061104	Conditional Use Permit Application No. C-05-136 Fresno, City of Fresno--Fresno Construct water well pump station 188, which will pump ground water into the City's Municipal Water Distribution System.	<b>Neg</b>	04/12/2006

2006039020	Northwood Neighborhood Park Conejo Recreation and Park District Thousand Oaks--Ventura The development of an 8.5-acre site, including: 2-5 and 5-12 age play areas, a concrete basketball court, sand volleyball court, single unisex restroom, two horseshoe pits, perimeter security lighting, concrete walkways, jog trail, picnic areas, benches, large turf areas, two parking lots, fencing and landscaping.	<b>NOD</b>	
2006038259	Yellow Star Thistle and Italian Thistle Control, Folsom Lake State Recreation Area Parks and Recreation, Department of --Sacramento, Placer, El Dorado Treat infestations of <i>Centaurea solstitialis</i> (yellow star-thistle) and incidental patches of <i>Carduus pycnocephalus</i> (Italian thistle) with a foliar application of herbicide in Folsom Lake State Recreation Area to control infestations of yellow-star thistle, a highly aggressive and invasive exotic species. Herbicide applications in the spring during early growth stages will utilize a selective herbicide, such as Transline. Herbicide treatment recommendations will be obtained from a Certified Pest Advisor and application of the herbicide will be conducted under the direction of a qualified applicator. Spraying will occur only when winds are less than 10 mph to avoid any drift or overspray. No special status sensitive species are known to occur in the project area. The first treatments will occur in the spring of 2006; follow-up maintenance treatments will occur in subsequent years. All required records on herbicide use will be filed with Sacramento, Placer and El Dorado counties.	<b>NOE</b>

2006031067	Central Avenue Flood Control Improvement Project San Diego County --San Diego Central Avenue has a long history of flooding problems during moderate and large storm events. The County of San Diego Department of Public Works Capital Improvements Project proposes to upgrade the drainage facilities and to alleviate flooding up to and including a 100-year runoff event and to improve public safety in the vicinity of Central Avenue.	<b>Neg</b>	04/13/2006
2006032071	Portola Yard Corrective Action Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding Portola--Plumas Union Pacific Railroad Company is proposing to undertake corrective action to address subsurface petroleum in soil and groundwater at the Portola Yard in Portola, California. Corrective action will be conducted north of the Portola Railroad Museum and south of the Middle Fork of the Feather River. The corrective action goal for groundwater is to contain, recover, and dispose of subsurface petroleum. Installation of a cutoff wall and extraction trench will provide a means to collect and control subsurface petroleum. The corrective action goal for oil is to remove subsurface petroleum in two areas north and down-gradient of the proposed cutoff wall. The removal will reduce the risk of degradation of groundwater and surface water quality. The intercepted flows will be treated to remove petroleum and clean water will be discharged to the river. The excavated areas will be backfilled with clean material.	<b>Neg</b>	04/13/2006

The improvements include public street improvements, on-campus circulation improvements and bus stop drop-off points. The improvements are part of a broader expansion project for the campus for which a Mitigated Negative Declaration was approved in January 2004.	<b>NOD</b>	
2004092011	East Cypress Corridor Specific Plan Oakley, City of Oakley--Contra Costa The project proposes the development of 5,759 residential units (4,587 new, 1,172 existing and entitled units) 801,100 square feet of commercial and commercial recreation uses, light industrial, parkland, levee, gas well sites, community, open space and other uses. The project will also require annexation into the City of Oakley; a portion of the site would also require annexation into the Diablo Water District and Contra Costa Water District, inclusion into the Central Valley Project, via approval of an inclusion application through the U.S. Bureau of Reclamation.	<b>NOD</b>

<b><u>Documents Received on Wednesday, March 15, 2006</u></b>			
2005102066	<p>UC Davis Medical Center Cancer Center Expansion Project University of California, Regents of the Sacramento--Sacramento</p> <p>The proposed project would expand the existing Cancer Center. A new 46,000 square foot building on a 1.5 -acre site immediately north of the existing building would provide space to consolidate cancer treatment services on the Davis Medical Center campus and would house clinical services such as pediatric oncology and additional clinic, chemotherapy infusion services and a pharmacy. The project would also remodel 9,000 square feet of the existing Cancer Center's second floor to expand clinical laboratory space, the outpatient pharmacy, and provide additional space for academic and administrative offices and support operations. A pedestrian bridge would connect the existing Cancer Center building to the new one. The proposed project could result in an increase of up to 83 staff persons who would be new to the daytime campus population. The building would operate during normal business hours (Monday through Friday, 8 AM to 5 PM). There would be approximately 24,000 outpatient/infusion visits on an annual basis (average 96 patient visits per day).</p>	<b>NOD</b>	
2005122068	<p>Lower Sacramento / American River Elderberry Shrub Transplant Project Sacramento Area Flood Control Agency Sacramento--Sacramento</p> <p>SAFCA proposes to transplant a total of 12 elderberry shrubs from the lower Sacramento River (RMs 45.6L and 58.5L) to the lower American River. The purpose of the project is to help facilitate the flood control repairs at the two Sacramento River sites scheduled for later in the year by addressing endangered species concerns as soon as possible and minimize potential adverse effects to the valley Elderberry Longhorn Beetle and its habitat by pruning and transplanting shrubs during their dormant period.</p>	<b>NOD</b>	
2005122087	<p>Glenwood Curves Highway 17 Safety Project Caltrans #5 Scotts Valley--Santa Cruz</p> <p>This project proposes to construct four soil-nail retaining walls at the edge of shoulder on Route 17 in the southbound direction. The inside shoulder would remain 2.0 feet in both directions throughout the project limits. Slotted drains would be installed in the inside shoulders and existing median barrier replaced. Outside shoulders would be constructed at 7.9 feet.</p>	<b>NOD</b>	
2006011134	<p>Student Academic Support Services Building University of California, Riverside Riverside--Riverside</p> <p>The Student Academic Support Services (SASS) Building is a 58,140 square foot building that will provide office and support space for core administrative services for UCR students. The exterior of the building will be furnished primarily in brick, stucco and glazing, consistent with existing campus structures. Adjacent uses include the Carillon Mall to the south of the project and an existing Physical Education Building to the north of the project site. Existing conditions on the 0.7-acre project site consist of a generally flat landscaped area.</p>	<b>NOD</b>	
2006038283	<p>Smartville Forest Fire Station 40 Apparatus Bay Replacement Forestry and Fire Protection, Department of --Yuba</p> <p>Demolish the existing apparatus bay building and rebuild new apparatus bay building, with office space on same footprint. Additionally, excavate six feet into the</p>	<b>NOE</b>
